A WORD OF PROTEST.

Civilization can never merit the full approbation of thinking men if any step band, though there is an awful amount of play. of material progress is accompanied by the macrifice of humans feeling. Civilization means nothing but the better environment and support of the citizen, docks any degree of noble, generous feeling in man should not even be admitted consideration. It is a retrogression towards barbarism.

THAT LOTTERY BUSINESS.

The public at large will feel that Rus-BELL HARBISON'S skirts are not clean, and that the taint of lottery patronage clings to his name. The ways of the Hanneson family are a little peculiar and decidedly painful to good American citizens.

The President denounces lotteries, and his son seems to support them for mercenary motives. The President does not receive gifts, cottages or otherwise, but Mrs. HARRISON is said to be the fair recipient in these cases of benefaction. The President does not buy real estate to m a new resort, but impecunious members of his family are said to do so.

All of which should not have foundation enough to furnish ground even for maliis rumor. The negative integrity of President Harrs seems a bright and shining sample by force of contrast.

OH. MY!

There is an awful possibility that the World's Fair Bill may be vetoed by Gov. FIFER. A constitutional question is in volved and there be those that clarm that the grant of the Legislature, which permits submerged lands to be filled in and reclaimed as a site, exceeds the concession of the bill, which makes no mention of such creation of a site. It would be a great set-back to Chiesgo if sense of duty were to lead the Governer to put an obstacle in the way of the World's Fair.

The President of the Federation of Labor has come out strongly in favor of the proposed sir garden. Commendation from such a source is important, because an Mr. Gompens tens of thousands of laboring people speak. They are the ones most interested because they would be the greatest beneficiaries, and if their sense of the advantage of such a spot unts to a unanimous demand for it, the Air Garden becomes perforce subject for consideration by the City Fathers. Those who attribute all our social ills to the fact that "there are too many people in the world "will not find much comfort in the conclusions just expressed by Dr. William Ogie in his very interesting paper on Marriage llates and Marriage Ages." instance, it is not very consoling to learn that in order to equalize the birth rate and the death rate it would be necessary that the present annual number of marriages should be reduced one-half. In view of this startling statement one feels but little impressed by the news that there are not so many early marriages now as there were twenty years ago and that, if anything, the annual total of marriages tends slightly to decrease. The most serious part of the matter is, as Dr. Ogle points out, that the proportion of celibates is highest among the well-to-do and the independent classes, and lowest among those who have to work hard for a living. Moreover, young people of the artisan class marry at a much earlier age than those in a better position, and while this state of things continues to exist, how can we wonder at the amount of misery and distress that cries aloud from the wretched courts and alleys of our cities and towns? Upless our working-class youths and of common prudence, it is to be feared that poverty and want will claim an increasing number of victims as the years go on.

worse or more terrible enemy, sharks, but she often felt her powers of endurance giving way, and it was only the thought of the agony her death would have caused her parents which enabled the heroic girl to continue her exertions.

The wreck took place at 9 r. M. Friday. Feb. 28, and Miss Lacy was not rescued until 9 o'clock Sunday morning. Twelve hours out of that time she spont with the chief officer, Grey, who had got on a raft. As he could not swim, the brave girl swam by the side of the raft and tried to tow it towards land.

Finding, however, that she was making no progress, she left him, hoping to reach land, which did not seem far away, and so get food and water for herself and him. She soon, however, got into crosscurrents, and when the Albatross rescued her she was drifting out to see.

Miss Lacy is now recovering from the fearful shock she has undergone, and has before now returned to her home. She expressed a great dread of going again on the water, and it is scarcely likely that the intrepid girl will ever visit England.

THE END OF YOUTH.

[F. C. MOSTIMER, IN "CHATTER."] This is how Clairon, the actress whom all Paris worshipped a hundred and fifty years ago, describes in her memoirs the terrible moment when, for the first time, she real-

ized that her youth had fied:
"I had resched the age of forty without naving noticed any change for the worse in my appearance. It may be that the elabo rate toilets necessitated by my roles had blinded the eyes of others; perhaps the illusion of my youth had been sustained by t may be that the passions I depicted or he deceptive light of the stage had something to do with the matter; whatever the explanation, all my friends' declared charming, and my lover adored me madly, In short, I was content.

"One day, being unusually desirous of ooking my best, I called to my assistance all those elegant adornings which we women always have in reserve, and which many people say 'Ah !' when they see us. As I studied the mirror closely, to see if my hair was arranged to the best advantage, there came to me a suspicion that my maid was getting negligent, that she had forgotten what became me, or that she had for once intentionally made me less attractive than usual.

"Nevertheless I called with confidence for the charming little bonnet which was to complete my toilet. Turn and adjust it as I would the effect was still unsatisfactory. Throwing the bonnet aside I had the maid bring me twenty others, and amazed to find that none of them restored the something I had come to miss I studied my face closely. "With the drawn curtains letting in ood of light, and with my face close to the mirror, I discovered faint wrinkles on my forehead, in both corners of my eyes, in the curve of my neck! the whiteness of my teeth had lost something of its brilliancy! my lips were less fresh, my eyes not so oright! and, unhappily. I felt that at that oment I was perfectly well! Forced to confess that the change was

ot the fault of my maid or of my bonnets, I burst into tears, 'What weakness!' do you say? Alas: I loved. My happiness deservied on my power to please, and reason told me I could no longer expect to do it.

'And doesn't know one, t suppose?"

'That's just it; he does know them and I don't.

Miss Bookmaker-Well, I suppose he got the "place."

Georgie, dear.

Mabel-Are you fond of music?

Watered Stock, | From Puck. | 'You seem to be very fond of soup, Mr. Skiparion,' remarked the laudlady, as he asked for a second help.
'Yes, 'he returned, with a meaning of his own; 'especially thin soups.

Tired All Over

Is the expression a lady used in describing her condition before using Hood's Sarasparilla. This preparation is wonderfully salapted for weak-ened or low state of the system. It quickly tones the whole body, gives purity and vitality to the blood, and clears and freshess the mind.
Take it now if you real "thied all over."

The marriage wasn't a month old, and the roung bride and her vising mother sat watching the clock work towards midnight. "What is that heavy, broken, uncertain footstep coming up the stairs?" said the mother-in-law sternly.
"I guess it's feorge, mamma. You know he always stuttered, and here of late it seems to have got somehow into his walk."

George Stuttered.

TWO VERY MEAN MEN.

The One from Duluth Could Give the Other Cards and Spades. "Did you have a big Fourth of July here?" asked a new arrival of the clerk

at the Bingham House last night, accord-

ing to the Philadelphia North American,

'No. it was very quiet," replied the clerk. "Same way with us up at Montpelier. The rich folks up there are rather stingy and don't take any interest in Fourth of

and don't take any interest in Fourth of July celebrations. Why, we've got some rich people in Moutpelier so cussed penurious that they wouldn't chip in five cents to save the Constitution of the United States from dissolution."

"That's queer," suggested the clerk.

"Fact, though! Why, we've got a man up there so mean that he had all the hair taken off his head by some chemical process to save the expense of going to a barber."

"You call that a mean man?" asked a

barber."

You call that a mean man?" asked a gray-bearded, stunted individual, who had apparently been inspecting the register, but had taken in the above conversation. "Why, that was a benevolent fellow compared with a man I know up in our town of Duluth."

Then you have some mean men, too?" queried the late arrival from Montpelier.

that you will grant my wife the decree of divorce. If you don't, she'll starve."

"Starve?"

"Certainly. Fact is, I've asked another lady to marry me, and if my wife don't get ther divorce I'll be seed for breach of promise, and the whole family'll be ruined.
